Lynn Common

Northern Strand Walking & Bike Path

Northern Strand Through Lynn

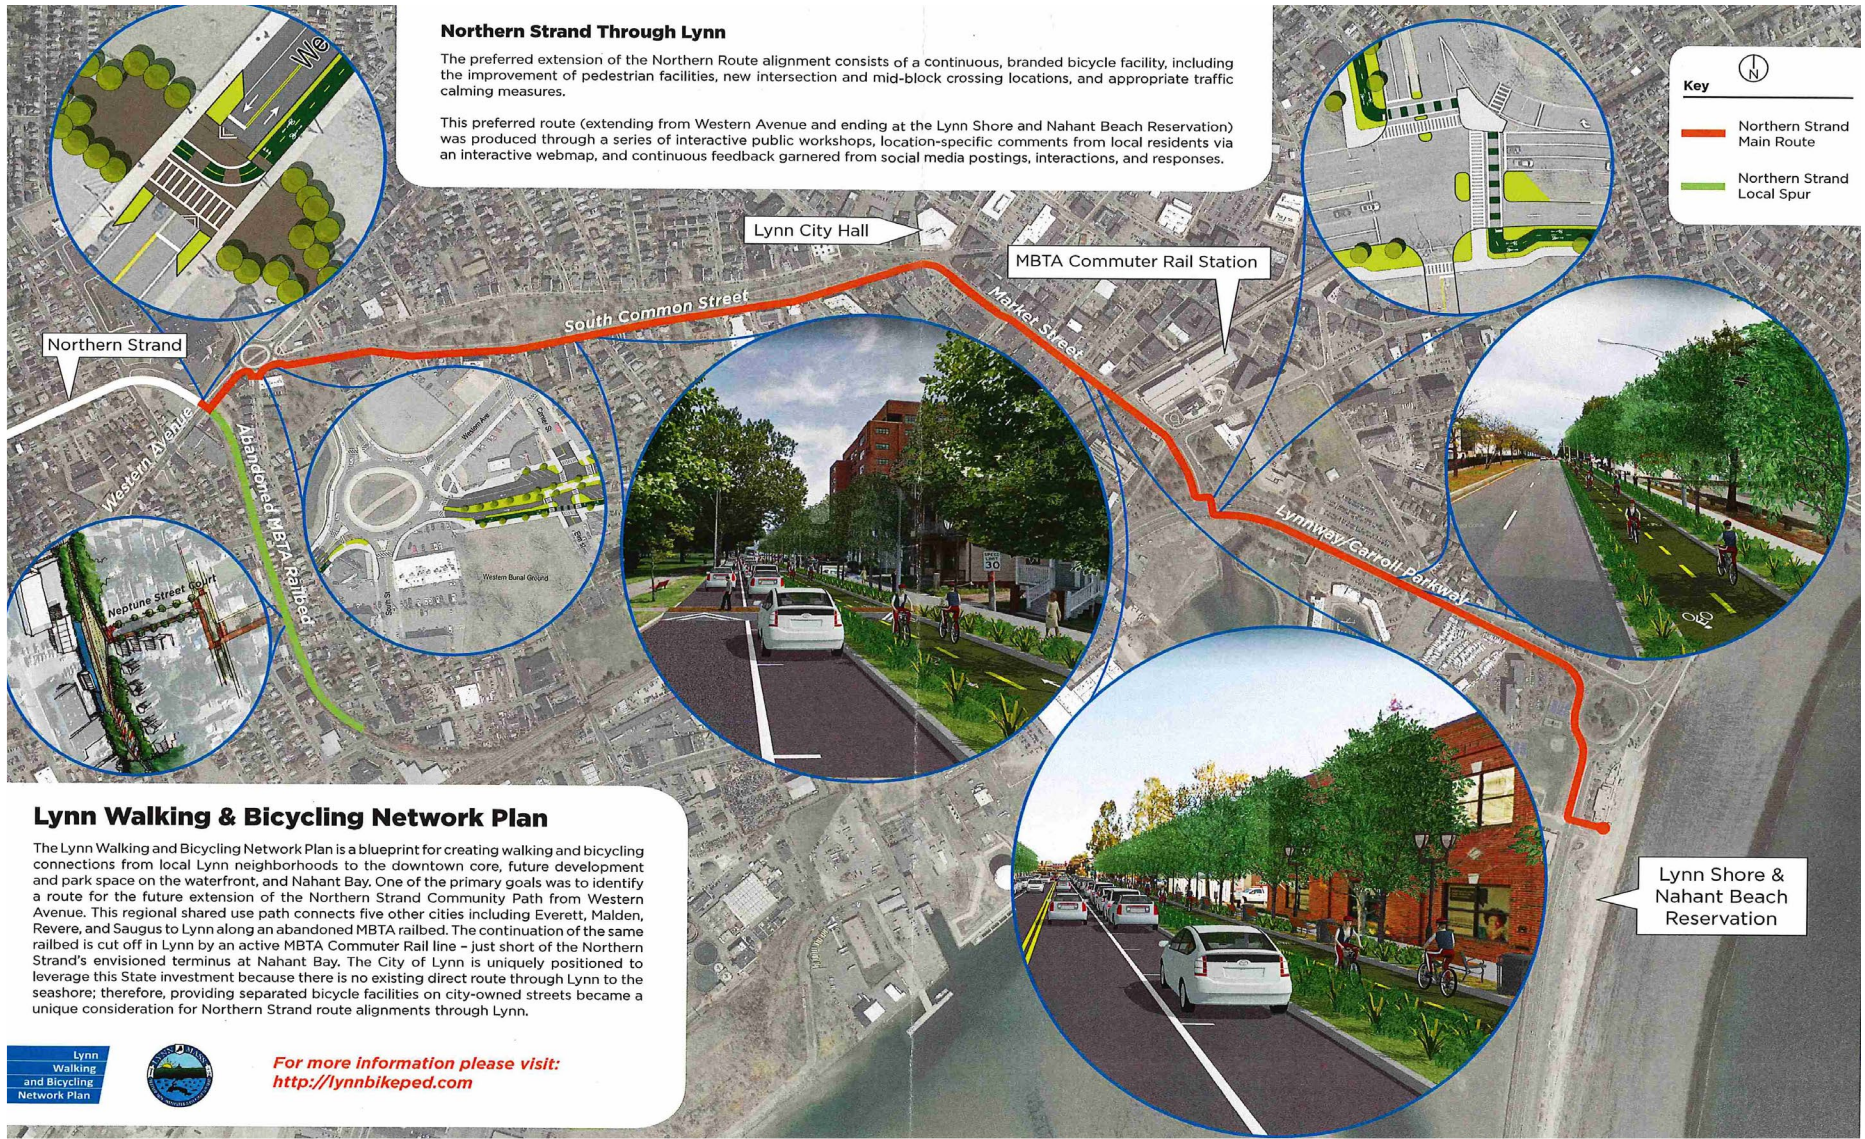

The preferred extension of the Northern Route alignment consists of a continuous, branded bicycle facility, including the improvement of pedestrian facilities, new intersection and mid-block crossing locations, and appropriate traffic calming measures.

This preferred route (extending from Western Avenue and ending at the Lynn Shore and Nahant Beach Reservation) was produced through a series of interactive public workshops, location-specific comments from local residents via an interactive webmap, and continuous feedback garnered from social media postings, interactions, and responses.

Lynn Walking & Bicycling Network Plan

The Lynn Walking and Bicycling Network Plan is a blueprint for creating walking and bicycling connections from local Lynn neighborhoods to the downtown core, future development and park space on the waterfront, and Nahant Bay. One of the primary goals was to identify a route for the future extension of the Northern Strand Community Path from Western Avenue. This regional shared use path connects five other cities including Everett, Malden, Revere, and Saugus to Lynn along an abandoned MBTA railbed. The continuation of the same railbed is cut off in Lynn by an active MBTA Commuter Rail line - just short of the Northern Strand's envisioned terminus at Nahant Bay. The City of Lynn is uniquely positioned to leverage this State investment because there is no existing direct route through Lynn to the seashore; therefore, providing separated bicycle facilities on city-owned streets became a unique consideration for Northern Strand route alignments through Lynn.
